

REMARKS

Claims 1 and 14 have been amended to correct obvious clerical errors and claim 16 has been amended to add a proper antecedent basis for the data conversion device recited in the last paragraph thereof. The above noted errors were noted in review of the claims prior to payment of the issue fee and were inadvertent. No new matter is added by this amendment and no additional search, examination, or substantial additional work on the part of the Patent and Trademark Office is required. The foregoing amendment was not presented earlier because its need was not recognized until after receipt of the Notice of Allowance.

Entry of the above amendment is requested since the corrections are for obvious errors, add no new matter nor in any way alter the scope of the claims.

Respectfully submitted,

Wade James Brady III
